Q.2. (A) Read the following passage and do the activities :

[10 Marks]

After a hearty lunch, my parents and my younger sisters lay down for an afternoon nap and I settled down with a storybook. The quiet afternoon presented the perfect back drop for reading an adventure story. The silence was occasionally broken by the sound of my family snoring, the intermittent chirping of house sparrows, the harsh cawing of a crow the shrill call of a kite flying high above the ground. Minutes ticked by. I became deeply absorbed in the book.

Suddenly, I heard a group of street dogs barking furiously in the distance. I chose to ignore the commotion thinking that the pack of dogs might have cornered a hapless pig. But soon, the barking became louder and more aggressive and the alarmed cawing of a flock of crows added to the cacophony. I also heard the disturbance approaching closer. Curiosity got the better of me. Leaving the book aside, I rushed to the veranda to see what was going on.

The world is Mine

Today on a bus, I saw a lovely girl with silken hair
 I envied her, she seemed so gay, and I wished I was so fair
 When suddenly she rose to leave, I saw her hobble down the aisle
 She had one leg and wore a crutch, but as she passed - a smile
 O God, forgive me when I whine
 I have two legs, the world in mine.
 And then I stopped to buy some sweets, The lad who sold them had such charm
 I talked with him , he seemed so calm, and if I were late, it would do no harm.
 And as I left he said to me "I thank you, you have been so kind"
 It's nice to talk with folks like you. You see, I'm blind
 O God forgive me when I whine
 I have two eyes, the world is mine
 Later walking down the street, I saw a child with eyes of blue He stood and watched the others
 play; it seemed he knew not what to do
 I stopped a moment, then I said , why don't you join the others dear He looked ahead without a

word, and then I knew he could not hear
 O God forgive me when I whine
 I have two ears, the world is mine.
 With legs to take me where I'll go
 With eyes to see the sunset's glow
 With ears to hear what I would know
 O God forgive me when I whine
 I'm blessed, indeed, the world is mine.

According to some experts, a staggering 93 percent of our daily communication is non-verbal. Facial expressions are easy to decipher. One can readily detect happiness, sadness, anger. Physicians can tell a patient is doing well (or not) by looking at his/her face.

Eye contact is another type of non-verbal communication, which can tell a lot about the other person. The eyes convey a range of emotions-happiness, sadness, boredom, surprise, confidence even emotional interest. Staring at someone's forehead may intimidate the recipient, staring at the mouth is sometimes interpreted as a sign of emotional interest. In fact staring into someone's eyes is a sign of lying, and so is looking away. In certain cultures, lack of eye contact is taken as a sign of respect.

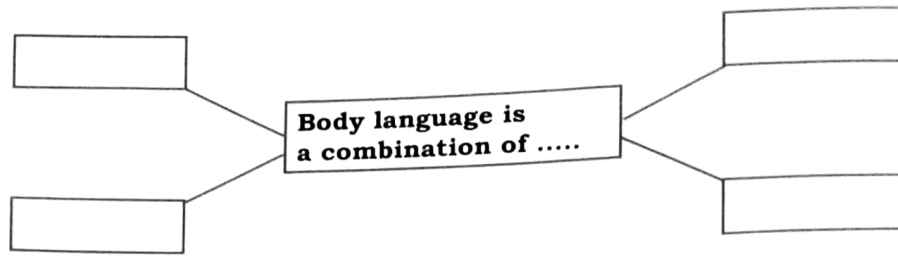

If body language is to be defined, it is a combination of facial expression, gestures, eye contact, body movements and posture and voice.

Frequent blinking is a sign of the person feeling distressed or uncomfortable. If the pupils are dilated, it often indicates interest, even emotional interest. 'The trees are our best friends'

"Good Morning, Respected Principal, my all teachers and dear friends, today on our tree plantation day as the General Secretary of our School cultural committee, I am telling you about our best friends, yes not our classmates but they are our soul mates, lungs of life, yes I'm talking about our best friends, 'Trees'.

It is correctly said that 'when you plant a tree, you plant a life.' Trees are one of the greatest blessings for humans from Mother Earth. They are the friends who always give us everything without expecting a single thing in return. We usually share everything with our friends similarly tree do the same. They give us their fruits, flowers, seeds, herbs and more. In a very hot day they protect us under their shade. Trees are also a home for several birds and animals. Trees benefit us in several ways and enhance our lives by their presence, similar to best friends. They are the essence of life. They give us oxygen to breathe, absorb carbon dioxide and timber to make homes. They cause rain preserve water bodies and prevent soil erosion and floods. They maintain the balance of the Nature.

We cannot survive in this world without our friends and similarly it is impossible to survive on this land without trees. Tree give us everything and in return we do nothing for them. The least we can do for trees is to protect them from being cut. Today we should take a oath, that we should take measures to protect our best friends, Trees, before it gets too late. So dear friends, plant more trees, save more lives.

Thank you very much for the opportunity to communicate with you all and for listening my thoughts. Have a greenary Day!"

ANSWERS Q.6 (A)

A1 Non-verbal to verbal

Important Career Factors.

Choosing a career is a big decision and while choosing a career we have to give importance to some valuable points. Earlier it was the parents, teachers and other siblings who largely influenced our career choices but remember we should not just enter one area because our friends or siblings have picked it up. We should listen to our heart, understand what we are really interested in. See if we are good abilities to fulfil and then only look forward. Also considered the demand of your professionals, In the market, so your future will be secured. Without demand of particular education skill, you will not succeeded in your career. Though you have good skills in particular profession but now it is outdated then you will not get success. For example if you have good skills in shorthand but now this course is not in demand as it replaced with computer technology, you will not get opportunity to show your skills. When your choose particular profession always see your personality abilities. Choosing a career can be daunting

task. Sometime our family professions are in our blood so it is a good choice vice versa it may be a bad choice too. Whatever the career you select it should gain profit and financial stability in future. You should assess your skills and interest, study the market and consult an experienced person before making a final decision and be secured.

Once upon a time there lived a wood-cutter whose name was Mohanchand, in a small village. He brought some wood from the forest and sold them in the market and earned bread butter for his family. One day as usual he went into the forest and started cutting dry woods from the tallest tree. Accidentally he dropped his axe into a river, flowing along with the forest. Mohanchand wept criedly, as this axe was only means of livelihood He was weeping and cursing his luck.

Taking pity on him the River God dived into the water and returned with 'Golden axe. "Was this what you had lost?" the God asked but Mohanchand said it was not. The God again dived into the river and returned with 'silver' axe Mohanchand modestly replied, "It was not mine." Further he said that his axe was ordinary iron made. The Gold was pleased to hear his answer. The God dived into the water and brought the wood cutter's original Iron axe. Mohanchand was on cloud nine as he got his axe back. He thanked the God for his deed.

Impressed by honesty the God allowed him to keep all three but Mohanchand said, "I 'm happy with my own." The God rewarded him all three axes. Mohandchand returned home happily. He sold the silver axe and by that money he started small business and lived happily with his family.
